B2/7 MODEL TOWN

DELHI-9

The FAR of plots of 1800 sq YARD is very less and thus the covered area/ permissible construction is very low. Therefore I suggest the FAR should be increased immediately of these big plots.

Also big size houses of 1000 sq meter and above should be allowed to SUB DIVIDED in 2 parts. And the sub divided parts should be allowed to apply for new building plans/maps in each part of their own independently. They should be granted FAR according to their new sub divided size of their plot.
