Suggestion for Master Plan ~~2007~~

I put my comment on behalf of Debate held by Urban Minister Sh. Kamalnath Ptd. Chamber of Commerce that without multi storey Building the development is not possible.

According to Mr. Kamalnath that there should not be multi storey Building in Delhi, But this is not proper answer as we know there is limited space in Delhi then how it is possible? He said that it will be a challenge for us to provide Electricity, water etc. to get rid of such problems, we will have to take some proper step. He said that when he make a trip with Commissioner of New York then he said, in New York to provide water Electricity in multi storey Building. He took the help of Technology and it is possible in Delhi as well. Urban Minister also said in Delhi there should be increment in F. AR why should be ~~to~~ not be four. For this we should make a discussion. He said there should be proper discussion, whether F. AR should increase or not. These are the serious issue. New master plan come in existence 2007. They ^{should} be proper guidelines of each subject. After taking every ~~meas~~ measures spread this plan, I would suggest, there is critics on increment of F. AR of Residential should increase then Commercial D.D.A shops F. AR also should be increased. Tejender Khanna ji, the D.D.A Chief said that F. AR ~~should~~ ^{will} be increased soon as I read in Punjab Kesari newspaper

Electricity Company has been directed
~~to~~ declare that Solar System will be
installed in every roof, than ~~electric~~
electricity will be produced for self
or extra will be given to ~~the~~ the
Electricity Company. This way the
problem of electricity will be also
solve. D. Actioned D.D.A shops and allotted D.D.A plots for
shops in various schemes mostly is single story. It should be
increased by master plan now this is my suggestion.
Thanking you, CHANDER PAL JUNEJA
