### SUGGESTION I

RELATED TO :- Improving traffic flow at Ring Road, Punj/da  
Bagh section

### CURRENT PROBLEM :-

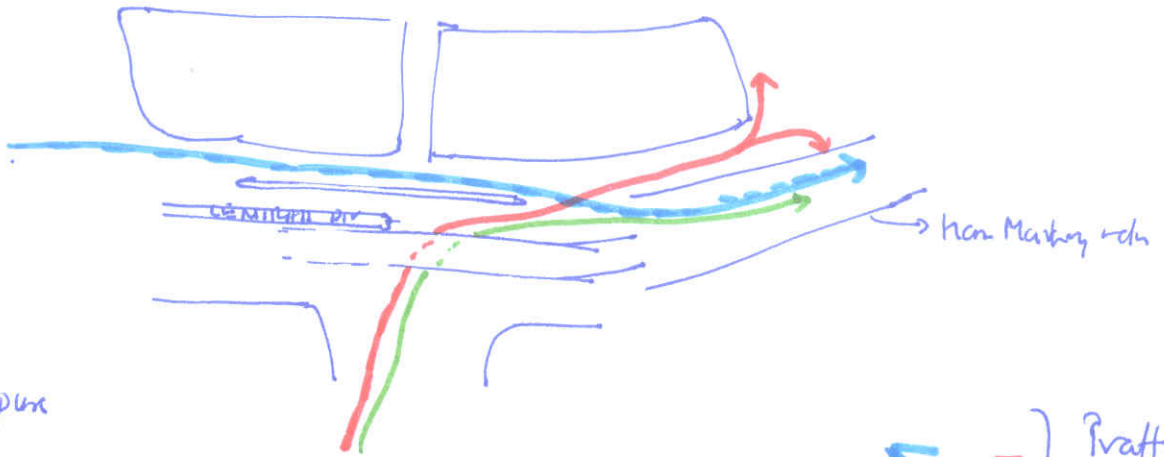

- \* Only a single side flyover exists (from Pitampura side to Rajon Garden direction) at Moli Nagar intersection.
- \* This results in congestion of traffic moving in 2 different directions. - This delays and creates traffic jams.

### SOLUTION :-

To create another flyover from direction of Rajon Garden to Pitampura - This flyover should merge with the Rohtak rd Flyover. (Shri Hanu Maharaaj Seta)

CURRENT FLOW

34

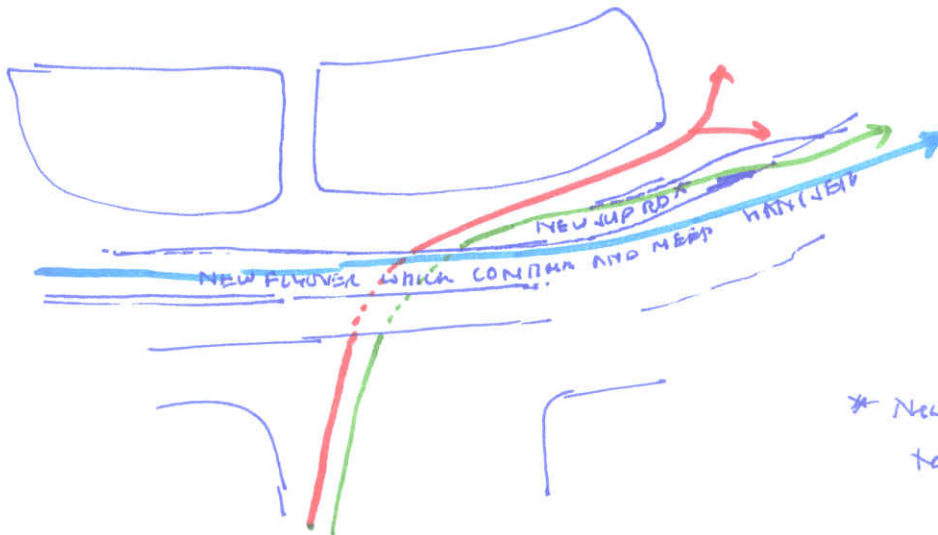

→ Traffic Bond from Ray Gdn to Pilampure

→ Traffic from Mohinga to Piragala/Rohlekel

→ Traffic from Mohinga to Pilampure

going traffic in diff direction is hitting into one another

PROPOSED FLOW

\* New sup road aid traffic from Mohinga to Pilampure
