Type	TRANSPORT
Paragraph/Clause/Subclause	Roads have to be 5 time wider
Date	02/24/2012
Suggestion	The Master plan roads of dwarka is evident of POOR PLANNING. There is zero facilities. There is no adherence to planning. The Pedestrain paths are so high not usble. The width are no use with growth so not calculated. The merging traffic islands are not created. left turn free are not there and many so. There has to be multiple road connectivities both 1 level and 2 level over the road. People are ready to pay the price for road usage with more cars added to roads. So the MPD should have provision to add more infrastructure with future planning of requirments of 2050 at least into consideration.
