Type	SHELTER
Paragraph/Clause/Subclause	relief should be for all & not for plotted construction only
Date	04/03/2012
Suggestion	MPD 2021 provided relief for construction till 07/02/2007 for ground + 3 floors for plotted construction only. This is the biggest drawback of MPD 2021, even though it was introduced with bonafide intention to provide much needed relief to delhites. Had the same relief be provided to all sort of construction either in DDA built flats, Tehbazari shops, or wherever the construction has been done for ground + 3 floors, without encroachment and where no dispute of land exists, its scope would have been much larger and effective. So the lawmakers r requested to legalize all sort of construction for ground + 3 floors all over delhi without mentioning plotted construction.
