**Suggestion no 1**

Subject : 1) Inclusion of Village Mandi and Village Dera Mandi areas into  
Regional Park IN the Master Plan 2021  
2) Approved farmhouse sanctioned prior to 1.8.90 only to continue  
in  
Regional Park

Dear Sir,

On examination of the detailed draft Zonal Development Plan for Zone J  
(South Delhi II) the proposed landuse plan, we find that the Village Mandi  
and Village Dera Mandi areas have been included in the Regional  
Park.

The activities permitted in the Regional Park Table 9.4 under Para 9.6  
GREEN BELT of the Draft Master Plan for Delhi 2021 is as under :

Use Zone Permitted	Activities
Regional Park	Ridge, Residential Flat (for watch & ward), Picnic Hut, Shooting Range, Zoological Garden, Bird Sanctuary, Botanical Garden, Local Government office (Maintenance), Open Air Theatre, Police Post, Fire Post, Orchard, Plant Nursery and Forest
01.08.90	APPROVED FARM HOUSES SANCTIONED PRIOR TO
	MAY CONTINUE

The above stipulation of permitted activities to only include approved farmhouses sanctioned prior to 1st August 1990 is arbitrary and unjustified.

Many farmhouses have been duly approved and sanctioned by the Municipal Authorities after 1st August 1990 in areas which are now constituted by the Regional Park. The Regularisation Scheme of the MCD in 1999-2000 also included farmhouses, and approved farmhouses in the Regional Park which have been duly regularized by the MCD, by taking substantial charges on account of levy for additional FAR, compounding fee etc.

It is, therefore, completely unjustified and arbitrary to stipulate the date of 1st August 1990 as the cut off date. this date has no relevance and seems to have been just a date taken out of the Hat .

**!This date should be removed immediately and be replaced by words " all farmhouses sanctioned " .**

It is, therefore, requested that the activities permitted in Regional Park must include farmhouses - approved and sanctioned - prior to the notification of the Master Plan for Delhi

2021.MCD cannot disown responsibility for Farmhouses or any other Construction sanctioned and approved by it.

“may be allowed to continue” mean? Allowed by whom?

We will be happy to submit any further details / clarifications, if so required.

## **Suggestion no 2**

The whole definition of REGIONAL PARK seems to be arbitrary and meaningless. The activities allowed under this head, as stated above, are impossible to do on PRIVATE FARMLAND areas. Can I run a ZOO on my farm? Regional park can be used by the GOVT for its own land. The Master Plan should be revised to include Deramandi and other areas covered in REGIONAL PARK to be amended to GREEN BELT as it was under earlier Master Plan

Thereby allowing farmhouses on private farmlands OR completely merged with other Urbanisation Scheme for the rest of the Agricultural Land in this area.

Why is Deramandi and Bhatti area being discriminated against and Land being demarcated for a purpose which it cannot be used for without Govt actually ACQUIRING the Land.?

The whole bordering area of Gurgaon next to Deramandi Villages has been converted into SEZ, Hirise Residential and Commercial Complexes by Haryana Govt so what is the point of keeping this side of the Border as a PARK?

Supreme Court has specifically disallowed in an earlier Judgement demarcating Private Land for Public use without expressly Acquiring the same.

**So our Suggestion is to allow Regional Park to be either be a part of rest of Urbanisation scheme for other Agricultural Land in Delhi or be declared GREEN BELT so that Private owners can use it for at least Farmhouses already allowed to others in Delhi. The definition of REGIONAL PARK to be abolished.**

## **Suggestion no 3**

The Deramandi area, while paying full property taxes and other dues on same lines as the rest of Agricultural areas of Delhi, has totally been ignored for providing any facilities by PWD/ DDA/ MCD

Over the years there has been no progress in providing roads as provided in Master Plan, no drainage, no Sewage and no piped Water. We are paying taxes of A grade colonies and getting facilities of Z Grade colonies !!!!

Master plan must be revised to include specific Dates by when specific facilities should be provided for. In last 40 years not a single new road / drainage / sewage work has been done. What is the effectiveness of the MASTER PLAN if everyone ignores it and it becomes a document of NOBLE INTENTIONS only. Master plan must have implementation plan also to which all implementation agencies must commit to. You have to only see the roads etc the Master Plan is showing and the ground reality to see that even roads shown in Master Plan 1980 are not yet made.

**So suggestion no 3, implementation plan agreed by implementing agencies must be included in Master Plan and these then held accountable.**

## **Suggestion no 4**

Many farmhouses are built in Agricultural Land beyond the Sanctioned area or built without Sanction. The

Govt bought out one Amnesty Scheme in 1998 to regularize built areas upto 500 sq mtrs  
Many farmhouses could not apply for this scheme as the scheme was abruptly withdrawn and many more illeg. farmhouses have come up since then .

The govt has , at various times thought of introducing an amnesty Scheme to regularize these.  
Our suggestion is that Master Plan should allow specific amount of Construction on each acre of Agricultural Land. This should be clearly stated and all future sanctions should be within these limits. All existing farmhouses should be allowed to get sanction for the same covered areas by paying a compounding fee / penalty . No need for separate Amnesty Schemes to be there. The covered area to be allowed per acre should be minimum 10% of Ground area and 3 floors (ground plus 2 ) and basement as is normal . This will still leave 90% of the area green .

**Therefore our suggestion is to give specific covered areas allowed to be built on a farm in the MASTER PLAN and then leave it to local authorities to charge penalty for construction already done .**

Thanking you,

Yours faithfully,

Arvind
