Paragraph/Clause /Subclause	15.3.3
Date	10/18/2011
Suggestion	<p>Kindlt refer to para 15.3.3 sub para (ii) the minimum row for the street to be declared mixed use and commercial in C &amp; D colonies in special area (Karol Bagh)is 9 meters. Also as per sub para (iii) the streets of less then 6 mtr row can be declared as PSS. In special commercial area of karol bagh which is mostly in D category most of the streets are of 7.5 mtrs row. so, the planners have for gotten this point that while the streets of row less then 6 mtrs and more than 9 mtrs can be declared commercial , the status of streets having row between 6 mtrs and 9 mtrs is not defined. and in karol bagh special area most of these 7.5 mtrs streets are having 100% commercial activity and should be declared commercial. If it is not done so , more than 22,000 commercial establishment operating on these streets will face uncertain future.</p>
