Suggestion	<p>The Lajpat Rai Market built in the 1958, The once biggest Market of the world for Electronic goods and spares market. The technology in 1958 was not much advanced as it is now. Where we had only one electronic gadget called Radio during 60s but now it is impossible to count the electronic gadgets and equipments. This market is mother supplier of components and spares for almost all the electronic items. The variety of products is countless. Several Thousands of families earn their lively hood by working for this market. The necessity of the present scenario demands that this market should be considered to allow at least 300FAR. This market may be developed with at least this much of FAR otherwise. We therefore request you to please consider our request to enhance the FAR in the Old lajpat Rai Market and help us bring back the same name and fame of this market on the international platform. Sanjay nagpal Gen. secretary. 9811144603</p>
