Type	URBAN DESIGN
Paragraph/Clause /Subclause	
Date	11/08/2011
Suggestion	I have a humble request and suggestion that what has gone to the concept of urban planing. We do not see any implementation at the ground level. The land of schools, parks, community centres are already encroached by the dwellers. We see shabby structures and bad living conditions. Overcrowding due to illegal constructions has defaced the urban design. It further badly affected day to day life of the peoples. The things are deteriorating day by day. Where is urban design exist?
