Suggestion	<p>Dear Sir/Madam, <u>We are residence of janki vihar prem nagar-II, which comes under kirari area</u> has population of more than 5000 people. We are living here since last 20 years. We got the provisional certificate issues by the delhi goverment whose registration number is 164. We got some news that DDA is going to plan 80 meter road and some marking has been done recentaly by some department. We kindly request that please make changes if any due to which 5000 people will lost their shelter. The area also has been shown as some facility and light industries. We kindly inform to you that it is totaly residanse area. So please if any plan is their to build 80 meter road between the colonies you can choose existing either 70 feet road or a 100 meter road which is already in proposal. The survey and layout is not proper so please do appropriate changes in it. Thanks & regards Gajraj</p>
