MPD Review

PS to UDM 29/12

Sub: " Request for incorporating the suggestion of the reduction of the Proposed 80 feet ROW as per MPD-2021 to 60 feet ROW -Raja Park Main Road"(Sardar Swantarta sainani Balbir Singh Sidhu Marg).

R/Sir,

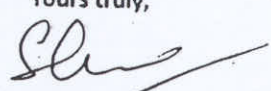

It is a welcome-sight for the Delhitis with a recent proclamation made in the Parliament by the Hon'ble Minister Shri. Kamal Nath -MUD-GOI to send the suggestions with a purpose to better the MPD-2021 so as to make public-spirited amendments in MPD- to incorporate the suggestion in the amended MPD-2021 after proper due consideration.

Raja Park main road pertains to Unauthorised Regularised category and M.C.D. is the land-owning agency and its Right of the Way is 80 feet as per proposed MPD-2021 and presently its physically Right Of the Way is 60 feet. The residents dwelling on the main road are the rightful owners after the demarcation made by the MCD including the other responsible agencies i.e Office of the DC (Revenue), Land & Estate division (MCD) Patwari (Tees Hazari). The construction work of the Road Under Bridge-Shakurbasti has been completed as per the existing ROW and now there is no need of widening of the road and therefore, keeping in view the interests of the residents on either sides, the reduction of the ROW be made to 60 feet please so that the sword hanging over the heads of the residents on either sides could be removed for ever.

A humble prayer is requested to reduce the proposed 80feet ROW to 60 feet ROW and set forth a suggestion in the amended MPD-2021 taking into consideration the interests of the authentic residents/dwellers. We are pinning our hope on you as a savior to safeguard the interests of the residents.

Thanks in anticipation,

Yours truly,

DINESH SHUKLA
Secretary-General
