Dear Shri Patnaik,

Please find enclosed copy of the representation from Gram Jan Vikas Sanghathan, 1023-B, Bazar Mohalla, Village Tughlakabad, New Delhi-110044 submitted in the office of your Director (Plg), MPR & T.C. Section giving suggestions for Mid Term Review of Master Plan regarding change in the classification of village Abadis as residential area instead of green shown in the land use plan of MPD-2021 for your sympathetic consideration and necessary action.

I have carefully gone through the representation and distressed to note that the village Abadis have been shown in the MPD-2021 as green which is not borne by the ground realities. In this connection, village Tughlakabad is one of the oldest historical villages of Delhi and the grievance of the villagers in this regard is bonafide. I therefore, request you to kindly exercise your good offices for depicting the correct position about the status of the village Abadi and necessary amendment in the land use plan of MPD-2021 in which villages of Delhi including Tughlakabad has been shown as green should be amended as residential in this Mid Term Review of MPD-2021.

I earnestly hope that the matter would receive your rightful consideration and justice would be rendered to the villagers of Delhi as a token of our concern for the welfare of rural folk.

With regards,

OFFICE OF THE DIR (Plg.)

Sub: Suggestions for Mid Term Review of MPD-2021

Madam,

I am submitting the following suggestions for **Mid Term Review** of Master Plan invited by you vide notification dt. 04-10-11 published in the Hindustan Times & The Times of India.

It is suggested that the villages of Delhi including Tuglakabad are shown green in the land use plan of MPD-2021 where as it is a fact well known to all that villages are the old inhabitant then the urban areas. It is also not out of context to mention here that all the land record is identified as the Revenue Estate Boundaries based on the village Abadies and their holdings , on the other hand all the colonies , Industrial Areas, Institutional Areas , Commercial Areas , Green Areas, Agriculture Areas etc were developed on the agricultural land owned by the villagers. Under these circumstances, how is it possible that old Abadi of villages had become non- existent shown as green and other land uses shown in the land use plan of MPD-2021 are in existence. By this dichotomy adopted in the landuse plan of MPD-2021, the villagers face various difficulties viz action of sealing and demolition of their residential houses, as these are shown as green in the MPD-2021. All the actions of development by the government agencies are taken on the basis of MPD-2021.

In view of the above, it is suggested that all the villages abadies in Delhi including Tuglakabad village be shown as residential in this Mid Term Review of MPD-2021, Land use plan.

Thanking you.

Jan
