Reg- Suggestion & Objection for Master Plan-2021

Sub- Suggestion for development of Lal Dora Land as per master Plan-2021

Dear Sir,

I am the resident of village Alipur, Delhi, this is in reference to Extended Lal Dora land situated in our Village, in the zonal plan that you have prepared it is no where cleared the use of activities that can be done on Lal dora land.

The Zonal Plan that has been prepared by DDA has completely ignored the existing population of the villagers and proposed to make other things apart from residential within the residential population of the village which is completely wrong on behalf of the villagers.

For the same revision and objection of Zonal Plan is being carried out so you are hereby requested to look into the matter and make layout plan after seeing already existing built-up residential area and prepare the zonal plan again so that the villager do not face difficulties.

In the end you are requested that for the benefit of the villagers and common man the rules and regulation should be made very simple and precise so that they do not face any difficulty and illegal things should not be encouraged.

Thanking You

Yours Faithfully
