SUBJECT- Request for permission of commercial activity on a notified commercial road.

Respected uncle,

I am very disappointed at the way the government has been treating us citizens who have been running showrooms in New Delhi and suddenly the government says that your showroom which has been running for the last 25 years is not legal and have sealed us asking us to live in a area which is not fit to live by any standards.

Here I am talking about gurudwara road which is a 2km stretch and has been certified as commercial by the government on 15th September 2007. Now according to the new master plan our showroom has only been given the permission to carry out commercial activity on the ground floor and basement, the rest of the building according to the master plan has been given residential status. Now my father is asking us to live there as now due to the size of our showroom, he is not able to earn as he was earlier and is not able to pay the rent of our existing house. Due to this disparity that on one side the market is open to work on all floors and on the other side it is permitted to work only on ground and basement, on that stretch of road we would have to shift to a place which is unfit for family living.

So please I hereby request you to de seal our showroom and return us our happiness.

Regards

Thanking you
Akshita Bansal
