Sub: Wrong Sealing in Kotta Mubarakpur

Sir,

I am visiting Kotta Market for many years but now it is very inconvenient for normal people to get good thing at reasonable price due to unnecessary sealing for so long. Do you think it is really needed because so many people dependent on their basic needs and jobs also.

And its quite shocking that opposite side shops are open (its not in your sealing). Do you think its the right way to treat people in two different category.

Here I am requesting you to allow this market for the interest of people who are visiting for their reasonable purchase and for those who are jobless and waiting for the right thing to happen. So, here you are requested to do the needful.

Thanking you,  
Yours responsible  
Secretary
