Subject: Request for providing relief to the residents of 365 urban villages in Delhi.

OFFICE OF THE DIR (Pg.)
FRTO, D.D.A. II, DELHI-2
No. ... 2691
7/5/12

Sir,

The brief facts are as under for your kind consideration and immediate action:

1. That there are about 365 villages in the union territory of Delhi, whose lands have been acquired by the government at very cheap rates and kisans/villagers of Delhi, became landless due to the wrong policy of the central government and Delhi government
2. That now only sources of income left in the villagers is the rental income but there are so many hindrances in there way in this regard
3. That there are old houses in villages and the person concerned wants to raise construction in those old houses to have new houses but due to the faulty system and policies of Delhi government the person cannot do this job. As every person wants the construction of there houses by getting the building plan sanctioned but the MCD department do not sanction the building plans as the procedure in this regard is very difficult and faulty one, but when the person starts the construction over his ancestral land even in the abadi area, they face hindrances from the MCD/DDA without any basis, causing undue harassment to the general public.

V C DDA

You are requested to do needful in the matter, either to simplify the procedure to get the building plan sanctioned or the villages to be kindly exempted from the interference of MCD or DDA so that they can raise construction and earn livelihood.

Thanking you.
