Dated 16/5

Dear Shri P. S. Uttearwar

Sub: Review of master plan of delhi-2021

My suggestions are

1. In DDA flats, the constructions which has already taken place, upto 15 meters height and 4th floor, should not be demolished.
2. New houses are being constructed, with parking facility on plots, the same facility should also be given in DDA flats wide allowing new constructions with parking after demolition of old flats. (it is possible in double story DDA flats, where stairs are being used by one flat owner only)

Thanks & regards

Yours truly

(Shammi Kapoor)
