A very important and significant area, which has been left out and got no relief in MPD-2021 is existing construction in DDA built flats. More than 20 Lakhs people are living in flats. Majority of the flats are built by DDA either for poor people or of LIG category people. And in almost all flats there exists unauthorized construction either in way of addition of floors or alteration. Demolition of existing construction by order of any court some day will spoil the lives of people. Existing construction in all forms (without encroachment) should be legalised.
