This is to suggest you to convert ARUNA ASAF ALI road for commercial use as there are already 75% of the properties being used for commercial activity . The road which is required for commercial use is newly built by government which is around 150 foot .The villagers have already applied in last list for commercial use .This would be helpful for development of this area and growth as it is near to the airport and the commercial activities will help to attract foreign clients as it is mehrauli village is connected to kishangarh village and vasant kunj which is a tourist spot.  
i request to consider my suggestion for better 2021 plan as it will be good for villagers and people living in vas ant kunj.
