Leave

Director (Pig.) Mr. ...
Vikas Minar N. DELHI
Jy. No. 3335
dated 21/5/12

Honble, Sir,

You are the first Housing Minister, who actually realised the bad condition of Delhi. You are young
Almighty God may bless you long and healthy life to serve the Nation.

Views on Master Plan-2021

Problem No-1:- Honble, Sir, Delhi is the dirtiest city/capital in the world. Delhi is a small
and tiny city in area having nothing of its own i.e. water, Electricity, Food, Vegetable,
Fruits, etc everything come from other States. Being Capital half of the area is occupied
by Central Govt offices, Ministries, Embassies, Sectt. President Bhawan, Ministers, M.Ps.
residences, many universities colleges, schools, religious places etc.

Problem No-2:- Already population of Delhi is 2 crores approx. living in tiny half area -
More than one crore ^{people have} occupied by unauthorised / Jhuggies / Floppies colonies & numbers
1669 en vacant DDA lands in whole Delhi left for schools, Parks, Play-grounds, community
centres, shopping complex etc. These people came from different states since 40 years
back and settled on DDA vacant land. No authority stopped and checked them.
Land Mafia's, Grabbers, ^{land} Gam many lakhs / Crores to JE / EE / SE / CE of DDA putting
Delhi people in hell, disturbing peace. Land Mafia's cut small plots and sold to
the coming people. Now these people ^{have} cut the water tap line, put wire on Elect. poles, case anywhere,
take smacks & other bad things in Parks, rape, sold children etc. They say there is no Govt in
Delhi.

Problem No-3:- Honble Sir, you are intelligent, hard working, law-knowing rules. Under
what rules vacant land of DDA in Delhi is captured by these peoples & Land Mafia's.
Nobody can live in India, but by purchasing property, properly, paying Stamp Duty to Govt
making Registry in Court. If Govt agencies stopped these people with hard hands, they
would have not captured the vacant land of DDA. For the last 40 years, these people were
given plots, but they sold them and again put Jhuggies / Floppies on other vacant places.

Problem No-4:- Honble Sir 75% people living in unauthorised colonies have everything
in their villages/states i.e. houses, agricultural land Milk animals, vegetables farms fruits
trees and other earning small works. They sell milk, wheat, vegetables, fruits and earn much.
Kindly, Honble Sir, get it checked from their states their real condition and then send them
back to live there and not make hell and disturb the peace of Delhi people. Remaining 25%
people are really poor. They should be got settled in Delhi only. In addition to it 10 lakhs
people from Bangladesh, Nepal, Burma, Tibet, Nigeria etc etc are living in Delhi without
Passports/Visas and selling smacks and drugs. They should also be sent back forcibly.

Problem No-5: Honble Sir, already 2 crores people are living in Delhi. There is much
Traffic. Every where there is flood of people. Man is climbing on man and cannot walk
on road, parks, etc. These Jhuggies / unauthorised colonies people produce more children,

Control population, make hard rules otherwise there will be civil war in Delhi. Present population of 9 crores is not adjusted in Delhi. How can your planners will accommodate one more crore of people in 2021 in this small tiny city of Delhi. When there is no water, elect. And other food & necessary for life in Delhi; no need of constructing high buildings / many storeys. It is only to disturb the peace of the Delhi people. On the contrary those people on DDA vacant land should be shifted to other states where there is plenty of everything for human life or sent back forcibly to their villages (state after checking their financial conditions).

Problem No. 6 last:- Hon'ble Sir Issue instructions to your Master Planners - 2021 first of all make survey of whole Delhi, make measurement of area for living one man not approve unauthorized colonies, sent these people to their states / villages. Those people who were given flats and ^{then} sold should be punished and sent back also. Only 25% poor people should be adjusted in Delhi by giving them constructed 25 yr old 4-storey flats on nominal rent. They will not sell them like Govt Quarters. Return back when vacated

Thanks

Yours faithfully

Sham Lal

Special Problem. The biggest disease of all problems is housing, employment, education, food, water etc ^{to all} poverty is explosive population. Children rule without any religion / Community. Should be strictly made for the prosperity of all people of India. China has made ~~made~~ rich rule reduced population and less population than India. India has population 200 crores 1/4th of whole world. Coming general will curse the planners for Delhi people. Now it is the planners to think Prepare Shimings M.P. 2021 or worst without pen.
