NEW DELHI - 110 002

OFFICE OF THE DIR (Plg.)
MPR/TC, D.D.A. N. DELHI-2
Dy.No. 3517
Dated 24/5/12

Sub: Abrupt sealing of Stainless Steel Pickling Units, falling
In Negative List of MPD 2021

Dear Sir,

Please refer to our earlier letter of even number dated 11 May 2012 informing you of above and requesting for respite in view of Midterm Review of MPD 2021 filed by us and received in your office vide diary No1746 dated 30 January 2021 for items of negative list pending before you.

You are requested to note our para 2 of review clearly mention flouting of norms of Section 10 of MPD 2021. Now since in the order on various writs the Hon'ble High Court of Delhi has given final disposal order and has observed the following:

Para 4:

"No notice was issued as per the procedure prescribed under Section 10 of the Act and thus in so far as inclusion of the petitioners in the ban/prohibition is concerned, there is a clear violation of mandatory procedure which is to be following in terms of Section 10 of the Act".

Para 5

"It is trite law when the mandatory procedure is not followed the action of the authorities becomes null and void. Those who build the procedural sword normally get perished by the same. That is what has happened in the instant case. The clause in the Master Plan which bans the induction furnaces of the capacity of less than 3 tons is therefore, illegal and has to be struck down. We order accordingly".

Para 7

"We accordingly make the rule absolute and allow the writ petition in the aforesaid terms".

MIDTERM REVIEW OF MPD 2021

Dear Sir,

Please refer to our letter of even number dated 11 May 2012 received in your office vide diary No.1790A dated 15 May 2012 on the subject.(Copy enclosed).

Our suggestions for Midterm Review of MPD 2021 have been received by your office under Diary No.1746 and is still under the process of being uploaded on DDA Website.

The units, engaged in manufacturing of item No1 – Induction Furnace of more than 3 Ton per charge; Item No.38 – Foundries (Heavy) and Item No.88 – Stainless Steel Pickling as the term mentioned in these items of draft MPD 2021 having installed their own effluent treatment plants for water and air and hold consents to operate were put into the Negative List.

We would like to state that DPCC have started issuing notice and sealing the units falling under the Negative List as per MPD-2021.

The Hon'ble Minister of Urban Development Shri Kamal Nath has publicly announced in seminar at PHD Chamber on 29 Mar 2012 in which your goodself was also present, that all the suggestions towards the midterm review having been received by DDA uploaded on the site shall be dealt with by the Deptt and no action shall be taken by the Civic Authorities.

You are request to please give us an appointment to discuss the issue personally with your goodself so that the hardships being faced by the industries because of the sealing drive is stopped. till the midterm review of MPD 2021 is finalized.

Thanking you,

Yours faithfully

(Kapil Chopra)
President

CORAM :
HON'BLE THE ACTING CHIEF JUSTICE
HON'BLE MR. JUSTICE RAJIV SAHAI ENDLAW

ORDER
18.05.2012

1. These petitions save for WP(C) 8035/2011 were head on an earlier occasion, on 22nd November, 2010 and order passed on that reflects the controversy in issue. For this reason we re-produce the order in its entirety :-

“Heard Mr.P.Kumar, learned counsel for the petitioner, Mr. P.K. Mittal, learned counsel for the respondent DDA and Mr. Arjun Pant, learned counsel for the respondent Delhi Pollution Control Committee.

It is submitted by learned counsel for the petitioner that the Master Plan prepared by the DDA under the Delhi Development Authority Act, 1957, insofar as it prohibits induction furnaces is unconstitutional as it invites the frown of Article 19(1) (g) of the Constitution of India inasmuch as the restrictions imposed in the Master Plan are totally unreasonable.

It is further contended that the preparation of the Master Plan runs counter to the postulates ongrafted under Section 10 of the Act inasmuch as what was stated in the draft Master Plan while inviting the objection was that induction furnace more than three tons shall be prohibited but in the final plan a complete ban irrespective of capacity was imposed. Thus, submitted the learned counsel, that there was no need on the part of the petitioner or his likes to file any objection but the Master Plan did not reflect that and brought in total prohibition. In essence, the proponement is that there is procedural non-compliance of Section 10 of the Act and the said provision being mandatory in nature, the Master plan deserves to be axed as far as this aspect is concerned.

Mr. P.K. Mittal, learned counsel for the DDA prays for some time to file an additional affidavit clarifying the said position.

Matter be listed on 7th January, 2011.

The interim order shall remain in force till further orders”

As per the aforesaid order, it was for the respondent DDA to show that the objections were invited, as per the procedure prescribed in Section 10 of the

ACT, even in respect of induction furnaces with a capacity of less than three tons.

2. In the hearing on 15.5.2012 is conceded by the counsel for the respondent DDA that the objections invited pertained to induction furnaces having more than 3 tons capacity and no specific objection was invited for prohibiting induction furnaces of less than 3 tons capacity. However she had contended that the matter was thereafter examined by the Board of Inquiry and ultimately decision was taken by the Authority to prohibit induction furnaces of less than 3 tons also. That would hardly be of any consequences and would not amount to meeting the mandatory procedure prescribed under Section 10 of the Act.

3. The only other submission of the counsel for the respondent/DDA on 15.5.2012 was that it needs to be examined whether there is any order of the Supreme Court banning industries having induction furnaces of loss than 3 tons capacity. The counsel for the respondent DDA was granted time on 15.05.2012 to examine this aspect. However, today she conceives that there is no such order. On the contrary, when we go through the orders of the Supreme Court, we find that is only those induction furnaces with more than 3 tons capacity i.e. heavy furnaces which is categorized in 'H' category and were banned in Delhi. Insofar as furnaces of less than 3 tons capacity are concerned, it was given 'F' categorization. As far as industry belonging to 'F' category is concerned, the Supreme Court banned the same only in the residential/non-conforming areas. The petitioners herein are in industrial/conforming areas as claimed by them.

4. The documents placed on record demonstrate in unequivocal terms that before finalization of Master Plan of Delhi 2021, public notices which were issued by the Delhi Development Authority invited objections pertaining to these induction furnaces having more than 3 tons capacity. It is not in dispute that all the petitioners save petitioner in WP(C) 8035/2011 are having their induction furnaces with less than 3 tons capacity. It is also informed that there are only four such units in Delhi. The petitioners, when the public notices as per the procedure prescribed under Section 10 of the Delhi Development Act proposed ban on induction furnaces with more than 3 tons capacity, had no grievance against such move on the part of the respondents as they were not going to be affected thereby and had no occasion to file any objections thereto. However, when the final Master Plan was introduced, it did not contain any such distinction between those induction furnaces which had more than 3 tons capacity or the ones with less than 3 tons capacity have been included in the ban/prohibition. The petitioners have been prejudiced thereby. In respect of these furnaces, no notice was issued as per the procedure prescribed under Section 10 of the Act and thus insofar as inclusion of the petitioners in the ban/prohibition is

concerned, there is a clear violation of mandatory procedure which is to be followed in terms of Section 10 of the Act.

5. It is trite law when the mandatory procedure is not followed, the action of the authorities becomes null and void. Those who build the procedural sword normally get perished by the same. That is what has happened in the instant case. The clause in the Master Plan which bans the induction furnaces of the capacity of less than 3 tons is therefore, illegal and has to be struck down. We order accordingly.

6. As far as W.P.(C) 8035/2011 is concerned, the same also relates to Foundry. While in the public notices supra, objections were invited to proposal to ban/prohibit "Foundries (Heavy)" the Master Plan bans "Foundries (except Pit Furnace)", thereby including those Foundries also which are not heavy. The position is the same, as regarding induction furnaces. The petitioner claims its Foundry to be not 'Heavy'.

7. We accordingly make the rule absolute and allow the writ petitions in the aforesaid terms.

8. We clarify that it will not prevent the DDA from amending the Master Plan, if it proposes so, after following the procedure laid down in Section 10 of the Act.

The petitions are disposed of accordingly.

P. No. DPCC/ EMC II/2011/WIA/ 25757 4061

Dated: 22/2/12

To,

The Deputy Commissioner (North-West),
BDO Office Complex,
Village- Khanjhwala,
Delhi-110081

Subject: Closure of units engaged in the activities fall under Prohibited/ Negative list of industries as per MPD-2021

Sir,

Hon'ble Supreme Court of India vide its judgment dated 07.05.2004 in the case of M.C. Mehta Vs Union of India and others has emphasized the implementation of the provision of Master Plan of Delhi. As at that time Master Plan, 2001 was prevailing, Hon'ble Court had based its judgment on the same and had ordered for the closure of illegal/ prohibited units in a phased manner. Now, the Master Plan -2021 is in vogue which categorizes certain industries under the prohibited/ negative list. These negative list industries are not allowed to operate in Delhi beyond 07.02.2010. In this regard various meetings have been held at the level of the Chief Secretary, Delhi wherein MCD and DDA have been directed to take action in their respective areas. Although the implementation of the provisions of Master Plan remain with MCD and DDA in view of the aforesaid Hon'ble Supreme Court's judgment, it is incumbent upon the other state agencies as well to put in their efforts. The DPCC has come across 151 units in Wazirpur Industrial Area (Annexure-I), 21 units in Rajasthan Udyog Nagar/SMA/SSI Industrial Areas (Annexure-II), 16 units in Badli Industrial Area (Annexure-III) which fall under the prohibited/ negative list of activities under MPD-2021.

You are requested to take immediate action for the effective closure of these units and send the compliance report at the earliest.

This is being issued in pursuance to the DPCC policy/ decision approved by the Chief Secretary, Govt of NCT of Delhi.

Yours sincerely,

(Sandeep Mishra)
Member Secretary
