Subject: Review of MPD 2021

Dear Sir,

We respectfully invite kind attention of your goodself to item No 39 Annexure III, Chapter 7 of MPD 2021 wherein the Gas Compressors are listed in the Negative list.

One of our unit M/s Indian Compressors Ltd, 35 Okhla Industrial Estate has intimated that process of manufacturing Air and Gas Compressors is non polluting because of Engineering activity only, therefore, they should not be covered under S/No 39 subsequent to the approval of DPCC.

The DPCC has issued a letter No DPCC/CMC/2009/941 dated 17th April 2009 (copy enclosed). The letter states that the activity should not be categorized under prohibited category and the basis for categorization should be found and manufacturing of compressors without gas may be taken out from the negative list.

We request your goodself that the compressor gas should be taken out from negative list.

With best regards

Yours sincerely

For OKHLA INDUSTRIAL ESTATE ASSOCIATION (Regd)

F. No. DPCC/CMC/2009/ 94)

Dated 17/4/09

Sub: Representation of Indian compressor Ltd., 37, Okhla Industrial Estate, New Delhi

This office has received your letter along with representation of the unit regarding Categorization of "Gas Compressor",

"Gas Compressors" has been specifically categorized at Sr. no. 39 of prohibited / negative list of Industries at Annexure- III of MPD-2021 and it states as follows :

*"Industries listed under prohibited category shall not be permitted to be set up in Delhi (Annexure- III). The existing industrial units under prohibited category need to relocate themselves outside Delh within a period of three years."*

An inspection was carried out by DPCC officials on 14.03.09 and observed that the process of manufacturing of Air & Gas compressors is non polluting because of engineering activity only. There is no manufacturing of gas for the manufacturing of compressors hence from our point of view, it appears that this activity is wrongly categorized under prohibited category in MPD - 2021 .

In view of this , it is requested to look into the matter to find out the base on which basis this activity was categorized under prohibited category and if deemed fit manufacturing of compressors without gas may be taken out of negative list . An early reply in this regard shall be highly appreciated.

( Satender Kumar)

Environmental Engineer.
