Sub: Suggestion for the Open House Meet organized by DDA for Mid-Term Review of MPD-2021.

Sir,

Reference to the above mentioned subject, I am submitting the following suggestions as under:

1. It is suggested the villages of Delhi including Tuglakabad are shown as green in the Land-Use Plan of MPD-2021 whereas it is an established fact that the villages are the old inhabitant than the urban areas. It is also not out of context to mention here that all the land record are identified as the revenue estate boundaries based on the village abadies and their holdings, on the other hand all the colonies, Industrial areas, Institutional areas, Commercial areas, Green areas, Agricultural areas were developed on the agricultural land owned by the villagers.

In view of the above submission and under these circumstances how is it possible that old abadi of villages has become non-existent and shown as green and other land uses shown in the land use plan of MPD-2021 are in existent. By this dichotomy adopted in the land use plan of MPD-2021 the villagers face various difficulties viz action of sealing and demolition of their residential houses, as they are shown green in the MPD-2021. All the actions of development by the Government agencies are taken on the basis of MPD-2021.

In view of above, it is suggest that all the village abadies in Delhi Including Tuglakabad village be shown as residential in this Mid Term Review of MPD-2021 Land Use Plan as well as Zonal Development Plan.

Yours Truly,

(DIWARAR BIDHURI)
President -
