Subject: Suggestions in regard to Master Plan/Zonal Plan of Zone G

Dear Sir,

I am the owner of agricultural land measuring 13 bighas and 09 biswas comprised in Khasra numbers 29/15 (Min) (2-6), 30/9/1 (Min) (1-13), 10 (Min) (4-12), 11 (Min) (3-17) and 30/19/1 (min) (1-1); situated in the Revenue Estate of Village Samalka, Tehsil Vasant Vihar, Delhi, having a duly sanctioned farm house.

After observing the proposal of the Delhi Development Authority/Central Government in the Master Plan/Zonal Plan 'G', I would like to submit the following suggestions:

In the draft zonal plan for G-18 there is a proposed new 80m R/W road between the high tension lines extending the 80m R/W road that is between Village Bijwasan and Village Kapasehra all the way to NH-8 (90m R/W) and forming a T-junction with NH-8 and not continuing into Zone J. I would like to suggest that the proposed road is unnecessary and would be very disruptive to traffic flow in the area, particularly on NH-8 as it is meeting NH-8 very close to two nodes, one a T-junction for the 100m R/W road from NH-8 to Dwarka, and the second the beginning of the NH-8 flyover over Rajokri-Bijwasan Road. As traffic has been increasing significantly on NH-8 over the past several years, the additional intersection would be disruptive and create even greater traffic jams rather than help ease traffic. I would suggest instead to invest in clovers at the intersection of the 100m R/W Dwarka road with NH-8 and also broaden the Old Gurgaon Road through village Samalka between Kapasehra and the 100m R/W

All such suggestions be
compiled and sent to

Dwarka road while creating a clover where Old Gurgaon Road meets the 100m R/W road. This would improve traffic flow on the 100m R/W Dwarka road as well as the 90m R/W NH-8.

I believe that the plan modified based on the recommendations of the Board of Hearing and Enquiry on objection/suggestion invited on the plan published on 17-12-2008 after its approval in Authority meeting held on 17-12-2008 vide item no. 87-2008 had the appropriate solution for G-18 with the commercial/residential block extending between a broadened 80m R/W Old Gurgaon Road to the West, Rajokri-Bijwasan Road to the South, a 100m R/W Dwarka Road to the North and a 90m R/W NH-8 to the East.

I would request you to consider our suggestions and please take suitable corrective actions to improve the plan while reducing congestion and costs.

Yours faithfully,

(K. L. Pai)
