Respected Congress President,

May I like to inform your excellency that many aggrieved residents of Punjabi Bagh Colony have approached me stating that their cases for part properties where arbitration award has been given apart from legal division of joint property is ordered in their favour by the Hon'ble Courts, despite the above facts M.C.D. is not considering their independent registry issued after the joint property divided referred to above. And whereas M.C.D. had approved their Map for construction earlier for their divided portion referred to above is not considering the cases for additional construction as per rules. I don't think that M.C.D. has many rules to follow to suit people of their choice which speaks of dishonesty and disparity.

To my mind, it is really some thing beyond surprising that M.C.D. is not approving their Maps for additional construction on the same premises as per rules as in other cases saying that they don't have independent property as clarified above and call it part property to reject their maps. Does it not look funny on the face of it to get a bad name to the Congress Party and our Government?

It is further understood that the above issue was published in Times of India about 2 years back in which it was clarified that the Govt. has decided to take decision on the above said issue very soon which is pending since then referred to above to my dismay.

Further on its scrutiny, it is also understood that there is one BJP Councillor (M.C.D) namely Shri Manjinder Singh Sirsa, who is a part of Builders Mafia in Punjabi Bagh area and he is not allowing things to move related to above residents for his

selfish interests. It is further understood that he has strong foot hold in M.C.D. thus causing harrassment to the above cited noble innocent residents apart from he is encouraging gross corruption to the public disadvantage.

I shall be highly grateful if your goodself is kind enough to request/ instruct the Hon'ble Prime Minister, Hon'ble Lt. Governor, Delhi, Hon'ble Chief Minister of Delhi and Hon'ble Minister of Urban Development to finalise the above long pending case on immediate basis to give relief to the innocent aggrieved residents of Punjabi Bagh locality. Also help order for issuing a notification/circular to this effect for the knowledge of the people and oblige. To my mind, the above prompt decision will strengthen the position of the Congress Party and its Government in the forth coming elections to be held in Delhi and to encourage the public of the state to avoid any more harrassment given to them on account of negative attitude of the opposition.

With respectful regards,

Truly Yours,

(GOVINDER PAUL SEKHRI)
