MID 2024 Review
by [Signature]

Hon'ble Sir,
You are the first Housing Minister, who actually realised the bad condition of Delhi. You are young,
Almighty God may bless you long and healthy life to serve the Nation.
Vicars on Master Plan-2021

Problem No. 1:- Hon'ble Sir, Delhi is the dirtiest city/capital in the world. Delhi is a small
and tiny city in area having nothing of its own i.e. water, Electricity, Food, vegetable
Fruits, etc everything come from other states. Being capital half of the area is occupied
by Central Govt offices, Ministries, Embassies, Sect. President Bhawan, Ministers, M.P.s.
residences, many universities colleges, schools, religious places etc.

Problem No. 2:- Already population of Delhi is 2 crores approx. living in tiny ~~half~~ area.
More than one crore ^{people have} occupied by unauthorised / Jhuggies / Fleppies colonies ~~numbering~~
1669 on vacant DDA lands in whole Delhi left for schools, parks, Play-grounds, community
centres, shopping complex etc. These people came from different states since 40 years
back and settled on DDA vacant land. No authority stopped and checked them.
Land mafias, grabbers, ^{land} gave many lakhs/crores to JE/EE/SE/CE of DDA putting
Delhi people in hell, disturbing peace. Land mafias cut small plots and sold to
the coming people. Now these people cut the water tap/line, put wire on Elec. poles, case anywhere,
take smacks + other bad things in parks, raps, sold child etc. They say there is no Govt in
Delhi.

Problem No. 3:- Hon'ble Sir, you are intelligent, hard working, law-knowing rules. Under
what rules vacant land of DDA in Delhi is captured by these people's Land mafias.
Nobody can live in India, but by purchasing property, properly, paying Stamp Duty to Govt
making Registry in Court. If Govt agencies stopped these people with hard hands, they
would have not captured the vacant land of DDA. For the last 40 years these people were
given plots, but they sold them and again put Jhuggies/Fleppies on other vacant places.

Problem No. 4:- Hon'ble Sir 75% people living in ~~own~~ unauthorised colonies have living the
in their villages/states i.e. houses, agricultural land Milk animals, vegetables farms fruit
trees and other earning small works. They sell milk, wheat, vegetables, fruits and earn muc
Kindly, Hon'ble Sir, get it checked from their side also their real condition and then send them
back to live there not make hell and disturb peace of Delhi people. Remaining 25%
people are really poor. They should be got settled in Delhi only. In addition to it 10 lak
people from Bangladesh, Nepal, Burma, Tibet, Nigeria etc etc are living in Delhi with
Passports/visas and selling smacks and drugs. They should also be sent back forcibly

Problem No. 5:- Hon'ble Sir, already 2 crores people are living in Delhi. There is much
traffic. Every where there is flood of people. Man is climbing on man and cannot walk
on road, parks, etc. These Jhuggies / unauthorised colonies people produce more children,
in children, they are in banks roads at night

control population, make hard rules otherwise there will be civil war in Delhi. Present population of 2 crores is not adjusted in Delhi how can your planners will accommodate one more crore of people in 2021 in this small city of Delhi. When there is no water, elect. and other food & necessary for life in Delhi, no need of constructing high buildings / many storeys. It is only to disturb the peace of the Delhi people. on the contrary these people on DDA vacant land should be shifted to other states where there is plenty of everything for human life or sent back forcibly to their villages (states after checking the financial condition).

Problem No. 6 last:- Honble Sir Issue instructions to your Master Planners - 2021 first of all make survey of whole Delhi, make measurement of area for living one man not approve a unauthorised colonies, sent these people to their states / villages. Those people who were given plots and ^{then} sold should be punished and sent back also only 25%. Poor people should be adjusted in Delhi by giving them constructed 25 sq ft. storey flats on nominal rent. They will not sell them like Gout Quarters. Return back when vacated

Thanks

Yours faithfully

Sham Lal

Special Problem. The biggest disease of all problems is housing, employment, education, foods, water etc. ^{to office} poverty is explosive population. 2 children rule without any religion / Community. Should be strictly made for the prosperity of all people of India. China has made ~~made~~ 1 child rule reduced population and less population than India, India has population 200 crores 1/4th of whole world. Coming general will curse the planners. Now it is the planners to think prepare shining M.P. 2021 or worst without for Delhi people.
