

Sub - Handing over of maintenance for electrical work of vacant Udyan from A.E.D. 6 to E.L.D. 13

Above site has been checked on 05.06.21, 07.06.21 and 08.06.21. All the lights i.e. neon strip is not functional and has been got damaged badly although the neon strip lights are in guarantee period of 5 years. It is also informed you that ^{all} C.C. TV cameras in the park are not functional. only 4 No C.C. TV cameras were working. When I was inform/ talk to Agency of C.C. TV camera Mr. Jagjeet he ask me that the cables of camera's are got damaged and it is not comes in my scope of maintenance. It is also observed that coated cable of camera is not laid ~~per~~ as per specifications. it is laid about 5" to 6" below the ground in DWC pipe and the pipes are not jointed properly. In this position this position this office is unable to maintain the C.C. TV camera's and Neon strip lights. because as discuss by AE/E.D.G Anam Kumar these are under the guarantee period but the agency is not ready ^{and green} for maintain and of above said camera's and lights. Because this office has not any power to ask the agency to ask any thing
